

FILTRATION COMBO

QSF

Maximum working pressure:
250kpa/36psi/2.5bar
Factory testing pressure:
400kpa/58psi/4.0bar
Size of silica sand:
0.5~0.8mm
Maximum water temperature: 43°C

Filtration combo are easy to use and install. Fiberglass reinforced tank with unequaled strength and durability.

These systems equipped with top-mount filter and centrifugal pump.

Filtration combo are the most recommendable equipment for swimming pool and fish pond.

Three-dimensional nameplate

Specification and size:

Model	Sand Filter Model	Pump Model	Connection Size	Flow	Silica Sand	A	B	C
